

Both independent and chain distributor sales representatives need these numbers to order Mrs. T's Pierogies from DOT Foods:

Mrs. T's® Pierogies are purchased by DOT Foods. DOT may not have all items listed below in stock at all times. Items you desire that are not in stock may require additional lead time for delivery to your distributor, and ultimately to you.

Who is DOT Foods?

"DOT" is a re-distributor, making Mrs. T's products available nationally to ANY local, regional or national independent or national chain distributor used by foodservice operators like you.

Why is that important to me, a foodservice operator?

Foodservice operators can order minimum quantities of Mrs. T's products from their current distributor, or new distributor, without a required minimum purchase. You'll need these numbers below to give to your Distributor Sales Rep when you are ready to order.

When a Mrs. T's item is currently not in stock at your distributor, DOT helps to get our products into distribution for you!

<u>DOT Foods Item Numbers</u>	<u>Mrs. T's UPC Code</u>	<u>Mrs. T's Pierogies Product Description</u>
